

THE BAND ROOM

The 'band room' is ideal for emerging acts or touring acts developing their reach with Wollongong audiences. The room is situated in front of the bar, with drapes moved across the walkway to the main stage to create a seamless partition that does not diminish the space.

A mega-deck stage is loaded in to elevate the performers and support a complete band, along with speaker stacks/amps/drum kit and space to move, while the room comfortably holds up to 220 punters with barrier, room to extend to 270 for events requiring less staging or no punter barrier is possible.

EARLIEST DOORS OPEN:

Monday – Friday (8pm)

Saturday (Midday)

Strict 11:45 pm curfew
