

## THE DECK

Situated in the UniBar beer garden, the Deck boasts an open air environment (with a smaller capacity than that of the Courtyard), combined with the brick & mortar facilities of the Unibar. It is a beautiful intimate space with lush trees, views of the lawns and an open air environment.

It is a good option for smaller events wanting an open air feel, but capacity doesn't warrant being in the courtyard or gardens. Perfect for dance music and electronic music events.
